QUESTION 1

What does the IBM Notes Companion Application allow?

- A. Windows Mobile clients to open attachments
- B. Android users to open encrypted email messages
- C. Apple iOS users to open encrypted email messages
- D. BlackBerry users to synchronize to do items from IBM Notes

Correct Answer: C

QUESTION 2

The travelerutil utility is used to update the password on the enterprise database when the password is updated. Where should this be run from?

- A. on the enterprise database server
- B. on each of the IBM Notes Traveler servers in the pool
- C. On the IBM Domino Administration server, then the admin4.nsf database will replicate it to the Notes Traveler servers.
- D. On only one of the Notes Traveler servers, and, once run, all the other Notes Traveler servers in the pool will be automatically updated.

Correct Answer: B

QUESTION 3

Renovations, Inc. deployed three IBM Notes Traveler servers in a virtual high availability (HA) environment. Chris, the administrator, noticed that the Notes Traveler server consoles were frozen, and no commands could be entered. After review of the Notes Traveler system dumps, the following value was identified:

Platform.LogicalDisk.1.AvgQueueLen.Avg = 2.5687066438E+5. Chris immediately took action to resolve the problem.

What did Chris do to resolve the issue in the Notes Traveler environment?

- A. added 4GB of RAM to each server in the virtualized Notes Traveler HA pool
- B. added two more processors to each server in the virtualized Notes Traveler HA pool
- C. ran IBM DB2 maintenance on the database in use by the virtualized Notes Traveler HA pool
- D. dedicated all physical resources on the virtual machine to each server in the Notes Traveler HA pool

Correct Answer: D

QUESTION 4

Prior to installing IBM Notes Traveler on an IBM Domino server which Domino task must be in the ServerTasks line of the notes.ini?

- A. ISPY
- B. HTTP
- C. LDAP
- D. DIIOP

Correct Answer: B

QUESTION 5

When users are connected to an IBM Notes Traveler High Availability (HA) Pool, what happens in the event of a server outage?

- A. The load balancer used in front of the Notes Traveler HA Pool will connect the user to a server that is still operational.
- B. The IBM Domino clustering feature of the IBM Notes Traveler server provides failover to a server that is still operational.
- C. The other Notes Traveler HA Pool members will automatically transfer the client connection to a server that is still operational.
- D. The firewall used in front of the Notes Traveler HA Pool will reconnect the user automatically to a server that is still operational.

Correct Answer: A

QUESTION 6

Charles is configuring the JDBC connectivity to an external SQL database.

Which defines how JDBC connectivity is used with the IBM Notes Traveler application?

- A. enables the IBM Domino server to store SQL databases
- B. allows Notes Traveler administration using SQL statements
- C. enables Java programs to execute vendor-independent SQL statements
- D. allows storage of device configurations in external databases such as IBM DB2 and SQL server

Correct Answer: C

QUESTION 7

What reason might an administrator choose to implement the IBM Notes Traveler default settings over the Notes Traveler Policy Settings document?

- A. The default settings document allows for different device settings per group.
- B. The default settings document applies updates almost immediately to Notes Traveler users
- C. The default settings document takes precedence over the Notes Traveler Policy Settings document
- D. The default settings document contains more options above and beyond the Notes Traveler Policy Settings document.

Correct Answer: B

QUESTION 8

IBM Notes Traveler High Availability Pools require which technology to provide failover to clients?

- A. firewall
- B. load balancer
- C. reverse proxy
- D. packet shaper

Correct Answer: B

QUESTION 9

Once IBM Notes Traveler servers are put into production, what average percentage should the CPU be below?

- A. 65
- B. 75
- C. 85
- D. 95

Correct Answer: B

QUESTION 10

In which way does the IBM Notes Traveler install modify the notes.ini ServerTasks line?

- A. adds the Traveler task
- B. adds the Traveler and Ispy tasks
- C. removes the HTTP task and adds the Traveler task
- D. adds the Traveler task and removes the StartJava task

Correct Answer: C

QUESTION 11

Tim is configuring his IBM Notes Traveler server to use an enterprise database. The Traveler task is reporting an error that the JDBC jar cannot be found or started during server startup. Tim has already validated the JDBC jar file location is correctly defined in the notes.ini.

What could be preventing the load of the driver?

- A. Tim failed to configure the JVM security to allow the jar to be loaded.
- B. Tim failed to build a trusted Program document in the lotustraveler.nsf.
- C. Tim failed to update the java.security file to allow the JDBC Jar to be loaded.
- D. Tim failed to update the jdbc.security file in the IBM Domino server data directory to include the path to the JDBC jar file.

Correct Answer: A

QUESTION 12

What is the general guideline to determine the number of HTTP threads to be allocated?

- A. HTTP threads should be equal to the number of ActiveSync devices.
- B. HTTP threads should be 3.2 times the number of registered devices.
- C. HTTP threads should be 1.2 times the number of registered devices.
- D. HTTP threads should be equal to the number of device sync threads.

Correct Answer: C

QUESTION 13

Which two device types require an IBM Notes Traveler client to register with Notes Traveler? (Choose two.)

- A. Apple
- B. Android
- C. BlackBerry
- D. Windows RT
- E. Windows Mobile

Correct Answer: BE

QUESTION 14

What ACL access is required by the IBM Notes Traveler web administration interface to allow changing device preferences and security profile settings in the Default Setting document?

- A. None
- B. Editor (or above)
- C. Reader (or above)
- D. Administrator role is checked

Correct Answer: B

QUESTION 15

How does the IBM Notes Traveler server obtain the ability to communicate with the enterprise database?

- A. The administrator must install the IBM WebSphere Administration client.
- B. Notes Traveler is pre-installed with all JDBC drivers for the supported databases.
- C. The database drivers are configured when the travelerutil command is executed.
- D. The administrator must copy the required JDBC jar files from the enterprise database or obtain these from the database vendor.

Correct Answer: D
