QUESTION 1

When users are connected to an IBM Notes Traveler High Availability (HA) Pool, what happens in the event of a server outage?

A. The load balancer used in front of the Notes Traveler HA Pool will connect the user to a server that is still operational.

B. The IBM Domino clustering feature of the IBM Notes Traveler server provides failover to a server that is still operational.

C. The other Notes Traveler HA Pool members will automatically transfer the client connection to a server that is still operational.

D. The firewall used in front of the Notes Traveler HA Pool will reconnect the user automatically to a server that is still operational.

Correct Answer: A

QUESTION 2

For maximum internet security, where should the IBM Notes Traveler server be located on the network?

A. in the DMZ

B. on an IBM Domino server using SSL

C. in a different data center than the mail server

D. behind a reverse proxy server on the internal network

Correct Answer: D

QUESTION 3

Why might a device\\'s Access State be set to "Prohibit" in the IBM Notes Traveler web administration interface?

A. The administrator has blacklisted the user.

B. The administrator has blacklisted the device.

C. The device does not support required security settings.

D. The device has exceeded the maximum number of failed logins.

Correct Answer: C

QUESTION 4

After upgrading from IBM Notes Traveler 8.5.3.3 to version 9.0, which two substitution rules will be created to allow for proper synchronization over HTTP? (Choose two.)

A. /traveler* --> /servlet/traveler*

B. /servlet/traveler* --> /traveler*

C. /Microsoft-Server-ActiveSync* -->/traveler/Microsoft-Server-ActiveSync*

D. /traveler/Microsoft-Server-ActiveSync* --> /Microsoft-Server-ActiveSync*

E. /servlet/Microsoft-Server-ActiveSync* -->/traveler/Microsoft-Server-ActiveSync*

Correct Answer: BC

QUESTION 5

When performing a capacity planning analysis for an IBM Notes Traveler High Availability environment with an enterprise database server, what does the administrator need to plan for a sustained number of?

A. load balancers

B. IBM Notes Traveler servers

C. clustered database servers

D. IOPS (Input/Output Operations Per Second)

Correct Answer: D

QUESTION 6

Charles has opened an issue with IBM Support. The Software Engineer asks him to issue the tell traveler PMR command at the IBM Domino server console.

What does this command do?

A. sends only the device detail and user detail information to IBM Support

B. begins adding the PMR number to any log files created after the command is issued

C. performs a system dump of log files, creates a log file collection, and automatically uploads it to IBM Support

D. performs a system dump of log files and creates a log file collection for Charles to send to support at his convenience

Correct Answer: C

QUESTION 7

How can Alex, an IBM Notes Traveler administrator, configure his Notes Traveler servers on Microsoft Windows to become aware of a database server using mirroring for high availability?

A. He must install a Microsoft SQL witness server.

B. He must use the travelerUtil db set url=jdbc... utility and specify the primary and alternate servers.

C. He must modify the notes.ini of all Notes Traveler servers in the service pool and specify the primary and alternate servers.

D. Via the IBM WebSphere Integrated Solutions Console, he needs to modify the Advanced Database Parameters and update the Client-Reroute settings.

Correct Answer: B

QUESTION 8

Which IBM Notes Traveler statistic reports the server health as Red, Yellow or Green?

A. Status.State

B. Traveler.State

C. Traveler.Status

D. Traveler.Health

Correct Answer: A

QUESTION 9

Sabrina is configuring the security settings for devices that will be used with the IBM Notes Traveler server. The default for the "Require Device Password" field in the server document is "Disabled". Which statement describes the "Require Device Password" setting?

A. enables the requirement that devices have screen lock passwords

B. enables the requirement that Notes Traveler replication use passwords

C. enables the requirement that Notes Traveler applications use passwords

D. enables the requirement that devices use passwords before wiping the device

Correct Answer: A

QUESTION 10

Marcela wants to see how the IBM Notes Traveler server is utilizing database connections. Which command should she run?

A. tell traveler active

B. tell traveler log db

C. tell traveler help db

D. tell traveler stat show

Correct Answer: D

QUESTION 11

When setting up an IBM Notes Traveler 9.0 environment, between which two locations must port 1352 be opened?

A. Notes Traveler server and mail server

B. Notes Traveler server and mobile devices

C. Notes Traveler server does not use that port.

D. Notes Traveler server and reverse proxy server

Correct Answer: A

QUESTION 12

The travelerutil utility is used to update the password on the enterprise database when the password is updated. Where should this be run from?

A. on the enterprise database server

B. on each of the IBM Notes Traveler servers in the pool

C. On the IBM Domino Administration server, then the admin4.nsf database will replicate it to the Notes Traveler servers.

D. On only one of the Notes Traveler servers, and, once run, all the other Notes Traveler servers in the pool will be automatically updated.

Correct Answer: B

QUESTION 13

Clark would like to review the Java memory usage of IBM Notes Traveler. Which statistic provides this information?

A. Mem.Java

B. Memory.C.Current

C. Memory.Java.Current

D. Traveler.Memory.Java.Current

Correct Answer: C

QUESTION 14

IBM Notes Traveler includes support for two-way, push, manual, or scheduled syncing for mail, calendar, and contacts for supported Apple devices.

Which other feature is supported?

A. Notes Traveler supports syncing of the Reminders application.

B. Contacts support includes syncing of all IBM Domino contact fields, including the photo field.

C. Apple devices support Microsoft Exchange ActiveSync syncing of the Notebook or To Do applications.

D. Calendar support with exception of recurring events, including IBM Notes custom repeating events.

Correct Answer: B

QUESTION 15

How can a new additional server be added to the IBM Notes Traveler server pool?

A. You cannot as all pool members must be defined at initial install.

B. Install a stand-alone server and then configure this to use the enterprise database.

C. Install a Notes Traveler server into the server pool using the "Install to server pool" option.

D. Install a Notes Traveler server into the server pool by setting NTS_NEW_SERVER_POOL_MEMBER to true in the notes.ini.

Correct Answer: B
