## QUESTION 2

Organization tree hierarchy can be changed from administrative console.

Which of the following statement is TRUE?

- A. All objects within an organizational container can be transferred to a different organizational container.
- B. Users within an organizational container can be transferred to a different organizational container.
- C. Changing organization tree structure does not affect users in IBM Security Identity Manager.
- D. Services and policies will be transferred automatically to the new organization branch.

Correct Answer: B

## QUESTION 3

Where is the correct location for verifying database connections to ISIM v6.0?

- A. WebSphere administrative console
- B. ISIM database connection log
- C. ISIM 6 Management Console
- D. WebSphere transaction log

Correct Answer: A

## QUESTION 4

When gathering requirements for Access Control which TWO access types to be managed need to be identified?

- A. MessageGroup name
- B. AccessRole name
- C. MailServername
- D. MailGroup name
- E. AccessID name

Correct Answer: AD

---

## QUESTION 5

Which two of the following are valid join directive types built-in ISIM?

- A. Precedence\_Sequence
- B. Concatenate
- C. Greatest
- D. Average
- E. Xor

Correct Answer: AD

## QUESTION 6

The ISIM deployment plan for setting up an SSO environment for authentication must include which tasks?

- A. Configure SSO product to reverse proxy to ISIM, configure ISIM's forgotten password options, create new ISIM authentication provider
- B. Create new ISIM authentication provider configure SSO product to reverse proxy to ISIM, provision SSO product from ISIM
- C. Configure ISIM for SSO. create new ISIM authentication provider, configure SSO product to reverse proxy to ISIM
- D. Configure SSO product to reverse proxy to ISIM, configure ISIM for SSO, provision SSO product from ISIM

Correct Answer: C

---

## QUESTION 7

To make use of a newly added javascript extension available in a workflow script node, which of following is valid example line added to scriptframework.properties file?

- A. ITIM.extension.AccountTemplate=com.acme.test.CustomWorkflowExtension
- B. ITIM.extension.workflow.acme=com.acme.test.CustomWorkflowExtension
- C. ITIM.extension=com.acme.test.CustomWorkflowExtension
- D. ITIM.workflow=com.acme.test.CustomWorkflowExtension

Correct Answer: B

## QUESTION 8

The client's IBM Security Identity Manager (ISIM) production environment consists of a two node IBM Websphere Application cluster. Server #1 has the Websphere Deployment Manager installed as well as one of the cluster nodes. Server #2 in the cluster just has the node installed. If a process monitor is being configured on Server #1 how many Java processes are there related just to Websphere?

- A. 4 - Deployment Manager process, Node process, Application Server process, Messaging Server process
- B. 1- Deployment Manager and Node processes run under a single Java process
- C. 3 - Deployment Manager process, Node process, Application Server process
- D. 2 - Deployment Manager process and Node process

Correct Answer: D

## QUESTION 9

Which is TRUE concerning the configuration of Reminder Interval within Workflow Notification Properties?

- A. Reminder Interval can be overridden within individual workflow activities
- B. Reminder Interval must be greater than the default escalation limit
- C. Reminders can be suppressed by setting Reminder Interval to 0
- D. Reminder Interval is specified in days

Correct Answer: D

Reference: [http://www01.ibm.com/support/knowledgecenter/SSTFWV\\_5.1.0/com.ibm.itim.doc/tsk/tsk\\_ic\\_wkflo\\_cfg\\_r emindinterval.html](http://www01.ibm.com/support/knowledgecenter/SSTFWV_5.1.0/com.ibm.itim.doc/tsk/tsk_ic_wkflo_cfg_remindinterval.html)

## QUESTION 11

When performing a partial export from the test IBM Security Identity Manager (ISIM) environment which of the follow statements is valid?

- A. The partial export process will export all dependencies for the object that is being exported from the test environment.
- B. The partial export process will export the dependencies necessary to create the export object in the target system.
- C. The partial export process does not support exporting multiple objects.
- D. The partial export process does not check dependencies.

Correct Answer: C

---

## QUESTION 12

Given an IBM Security Identity Manager test environment which is a valid option for testing thousands of TDI/RMI adapters?

- A. Point IBM Security Identity Manager test environment services to production environment end points to be managed
- B. Use the threaded\_damlservice.pl script from the IBM Security Identity Manager tuning guide
- C. Install thousands of separate TDI dispatchers
- D. Use the virtual service adapter setup

Correct Answer: C

## QUESTION 13

When prioritizing platforms for which to provide an adapter which of the following criteria would cause you to exclude a platform from an initial deployment?

- A. A large user population is defined on the system.
- B. Access is limited due to sensitive content.
- C. Users are added and deleted dynamically.
- D. User auditing is required.

Correct Answer: C

---

## QUESTION 14

When gathering requirements for email notifications, which event triggers an email notification?

- A. Reconciliation request activity
- B. Compliance request activity
- C. Adapter activity
- D. Role activity

Correct Answer: C

---

## QUESTION 15

Separation of Duty policies create mutually exclusive relationship between what in order to protect sensitive information from conflicts of interest?

- A. Provisioning policies
- B. Accounts
- C. Groups
- D. Roles

Correct Answer: D
