**QUESTION 1**

You use BEx Query Designer to create a query with the characteristic "Material" in the rows and the key figure "Sales Volume" in the columns. Now you create an exception (Bad 3, Critical 2 and Good 1) and activate it. After executing the query, all values under Sales Volume are colored. You now edit the exception and click the Exception Only Affects Results button.

What happens in the report?

- A. No report records are colored.
- B. Only the Bad 3 values are colored.
- C. Only the overall result of the Sales Volume key figure is colored.
- D. The exception is deactivated automatically.

Correct Answer: C

---
