- C. Check whether the software is open-iSCSI multipathing software support
- D. None of the above comments

Correct Answer: A

---

## QUESTION 4

At the same specifications, the number of disks, disk space utilization is below 60% of the RAID levels are () (Choose two)

- A. RAID 5
- B. RAID 50

C. RAID 1

D. RAID10

Correct Answer: CD

---

## QUESTION 5

What port S2600T controller: (Choose three)

A. Management Ethernet port

B. Maintenance serial

C. iSCSI host ports

D. SAS host ports

Correct Answer: ABC

---

## QUESTION 6

Which of the following are iSCSI protocol advantages in practical applications? (Choose three)

A. Powerful

B. Long distance transmission

C. Safe

D. Low Cost

Correct Answer: ABD

---

## QUESTION 7

S5600T storage system can cascade mini SAS and FC hard disk enclosure box.

A. True

B. False

Correct Answer: B

---

## QUESTION 8

With a new PC, when you first use the ISM manage storage devices when you connect the network cable management in the IE address bar enter: <http://192.168.128.101>, will pop up an ISM management interface, then What operating normally need to install the software? (Choose two)

- A. ISM management software installed on the PC client to
- B. Install the JRE software

- A. 3
- B. 4
- C. 5
- D. 6

Correct Answer: D

---

## QUESTION 10

S5000T products are not safe dish.

- A. True
- B. False

Correct Answer: B

---

## QUESTION 11

Before storage system configuration which includes planning: (Choose three)

- A. Capacity Planning
- B. Reliability Planning
- C. Network Planning
- D. Host Plan

Correct Answer: ABC

---

## QUESTION 12

When iscsi host and array configuration, the host -side software must be installed and configured initiator:

- A. True
- B. False

Correct Answer: A

---

## QUESTION 13

Compared with the traditional N8000 NAS device, which has the following advantages: (Choose three)

- A. Mass of storage space and scalability
- B. Concurrent multi-user access and full sharing
- C. Ease of use and availability clustering equipment
- D. Easier to install, configure, easier

Correct Answer: ABC

---

## QUESTION 14

S5500T safe dish described right there () (Choose three) A. No. 0,the 2nd and the 1st slot,slot 3 must have a disk in place.

- B. 4 safe tray must be the same manufacturer in the same type of disk.
- C. Please do not plug or adjust the order of safe disk drive,otherwise it may damage the system data.
- D. Do not use the safe disk as a hot spare.

Correct Answer: BCD

---

## QUESTION 15

S2600T is a low-end storage products, S5000/S6800 is a high-end storage products, S5000T/S6800T a new generation of high-end storage products.

- A. True
- B. False

Correct Answer: A

---
