QUESTION 1

What connects Fibre Channel SAN switches to form a scalable SAN Fabric?

- A. ISL
- B. NPIV
- C. FCoE
- D. FSPF

Correct Answer: A

QUESTION 2

You are using HPE Library and Tape Tools to document serial number and firmware versions of your customers tape infrastructure. What do you use to perform this?

- A. diagnostics option
- B. device info option
- C. support ticket option
- D. failure analysis option

Correct Answer: B

QUESTION 3

A customer needs to be able to manually map out preferred paths within a fabric, based on application, priority, and topology, while allowing failover to a non-preferred path if the preferred path fails. Which SN3000B feature should you recommend to the customer to provide this functionality?

- A. frame filtering
- B. advanced zoning
- C. quality of service
- D. traffic isolation zones

Correct Answer: D

QUESTION 4

Match the tools and resources with the features they provide

VisioCafe		details HPE Best Practices regarding planning, upgrading, and migrating SANs
HPE SAN Design Reference Guide		provides a mix of validated storage configurations, guidelines, and suggestions on a variety of HPE storage solutions
HPE Storage Sizing Tool		enables you to work with your customers to design a storage infrastructure to meet their needs
HPE Single Point of Connectivity Knowledge		provides graphics that you can use to create diagrams, storage network cable management, and schemas for your proposed solutions

Select and Place:

VisioCafe		details HPE Best Practices regarding planning, upgrading, and migrating SANs
HPE SAN Design Reference Guide		provides a mix of validated storage configurations, guidelines, and suggestions on a variety of HPE storage solutions
HPE Storage Sizing Tool		enables you to work with your customers to design a storage infrastructure to meet their needs
HPE Single Point of Connectivity Knowledge		provides graphics that you can use to create diagrams, storage network cable management, and schemas for your proposed solutions

Correct Answer:

	HPE Single Point of Connectivity Knowledge	details HPE Best Practices regarding planning, upgrading, and migrating SANs
	VisioCafe	provides a mix of validated storage configurations, guidelines, and suggestions on a variety of HPE storage solutions
	HPE Storage Sizing Tool	enables you to work with your customers to design a storage infrastructure to meet their needs
	HPE SAN Design Reference Guide	provides graphics that you can use to create diagrams, storage network cable management, and schemas for your proposed solutions

QUESTION 5

A customer is interested in migrating to a three-tier infrastructure with HPE Helion Openstack. You are asked to prepare a Proof of Concept to demonstrate the ease of deployment through the management console. Which management dashboard should you demonstrate to provision the storage environment?

- A. HPE OneView
- B. HPE StoreVirtual CMC
- C. HPE StoreServ Management Console

D. HPE Cloud System Management Server

Correct Answer: B

QUESTION 6

A customer requests phone home support for the company's HPE StoreVirtual storage platform. Which HPE tool should you recommend?

- A. HPE Insight Remote Support
- B. HPE Service Processor Onsite Customer Care
- C. HPE OneView
- D. HPE SAN Visibility

Correct Answer: C

QUESTION 7

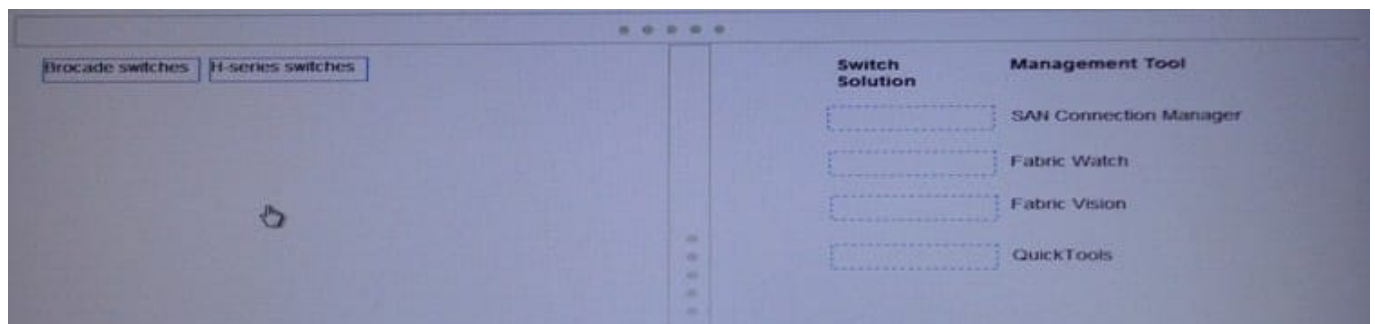

You are designing your customer's HPE B-series SAN infrastructure upgrade and you want to ensure compatibility between SAN switch firmwares. Which command can you ask them to run to provide you with this information?

- A. alishow
- B. version
- C. switchversion
- D. switchshow

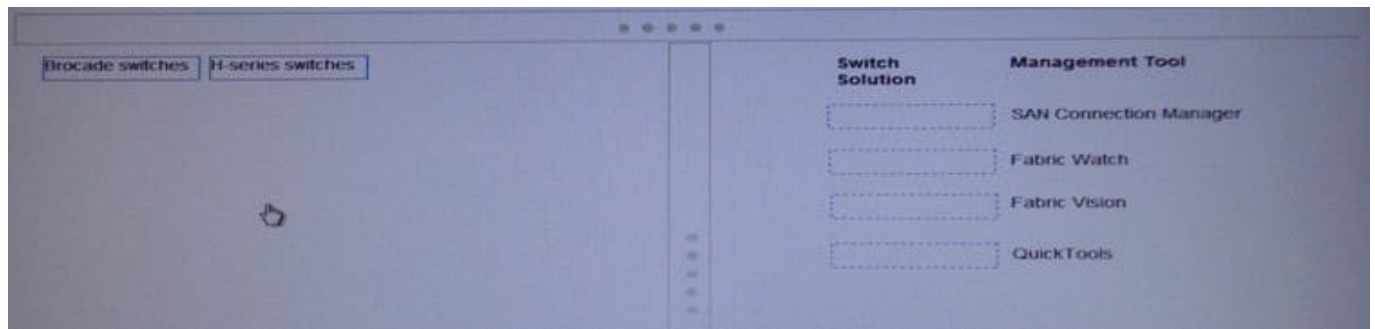

Correct Answer: D

QUESTION 8

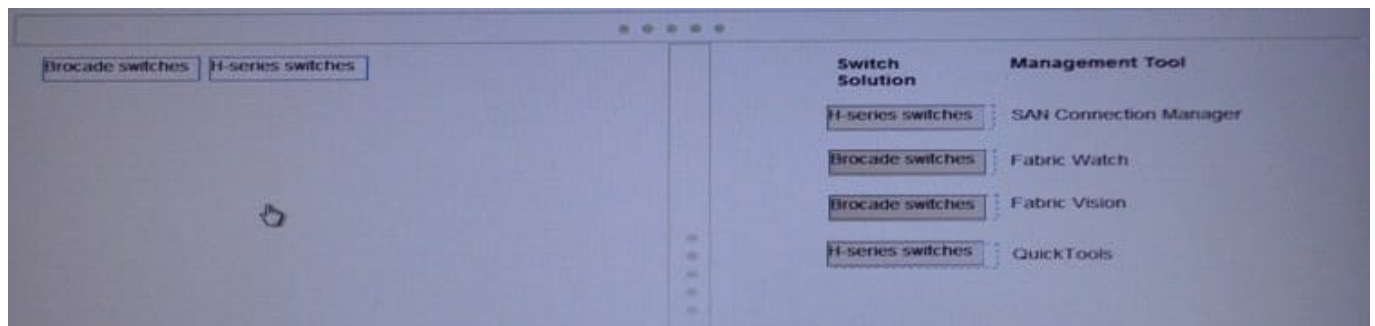

Match the switch solution to the appropriate management tool to document an existing SAN switch environment.

Select and Place:

Correct Answer:

QUESTION 9

Which functionality does an HPE 3PAR StoreServ File Controller provide?

- A. switch
- B. router
- C. bridge
- D. gateway

Correct Answer: D

QUESTION 10

At which level does deduplication take place in an HPE StoreOnce system?

- A. file
- B. metadata
- C. block
- D. object

Correct Answer: C

QUESTION 11

Which component performs the iSCSI encapsulation process in an iSCSI SAN environment when not using a TCP/IP Offload Engine (TOE) card?

- A. network switch
- B. softwareinitiator
- C. network interface card
- D. GBIC

Correct Answer: B

QUESTION 12

Your customer has very specific performance requirements and is thinking about purchasing a SAN and backup device. Which resource should you use as you work with your customer to design a storage infrastructure to meet your customer's needs?

- A. HPE SAN Design Reference Guide
- B. HPE Storage Product Selector
- C. HPE Storage Sizing Tool
- D. VisioCafe

Correct Answer: C

QUESTION 13

A customer requests 3 new storage solution The RTO is measured in days. Which cost effective recovery option meet this requirements?

- A. clustered HPE Storage array with backup to disks
- B. highly available HPE Storage array with no backup
- C. standalone HPE Storage array with HPE tape backup
- D. redundant HPE Storage with replicated data offsite

Correct Answer: C

QUESTION 14

You need to document the deduplication ratio and capacity management of a federated deduplication environment using HPE StoreOnce solutions in a company's headquarters and branch offices. Which HPE management tool should you use?

- A. HPE Data Protector Reporter
- B. HPE StoreOnce Enterprise Manager
- C. HPE StoreOnce Optimizer
- D. HPE Storage Optimizer

Correct Answer: B

QUESTION 15

Your customer's data centers are interconnected with 16 km long dark fiber. Which type of 8 Gb fiber optic modules (SFPs) are required to connect the FC SAN switch ISL links?

- A. extended reach SFP+ transceiver (LR)
- B. long reach multimode SFP+ transceiver (LRM)
- C. extended long wave SFP+ transceiver (ELWL)
- D. long wave SFP+ transceiver (LW)

Correct Answer: B
