100% Passing Guarantee  
100% Money Back Assurance

Following Questions and Answers are all new published by HP Official Exam Center

-  **Instant Download** After Purchase
-  **100% Money Back** Guarantee
-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

**QUESTION 1**

Which memory DIMM technology combines DRAM memory with flash memory to allow data to be retained in the event of power loss?

- A. LRDIMM
- B. RDIMM
- C. UDIMM
- D. NVDIMM

Correct Answer: D

---

**QUESTION 2**

When configuring Secure Boot in VMware CSXl. which option should the administrator enable?

- A. Embedded UEFI Shell Options
- B. ROM Based Setup Utility
- C. UEFI Optimized Boot
- D. Legacy Boot Mode

Correct Answer: C

---

**QUESTION 3**

Which blade enclosure component allows the aggregation of up to 16 iLO ports in an HPE c7000 enclosure?

- A. HPE Flex Fabric 20/40 F8 module
- B. HPE 40 Gb Ethernet Switch
- C. HPE Virtual Connect Enterprise Manager
- D. HPE Onboard Administrator

Correct Answer: A

---

**QUESTION 4**

A customer needs help simplifying the management of its current blade infrastructure solution. The customer also needs the ability to take advantage of REST API.

- A. HPE Virtual Connect Manger

- B. HPE OneView
- C. HPE Virtual Connect Enterprise Manger
- D. HPE Insight Remote Support

Correct Answer: A

---

**QUESTION 5**

A customer needs a server solution that supports E3-1200 v5 processors.

Which server model meets this requirement?

- A. HPE ProLiant ML10 Gen9
- B.
- C.
- D.

Correct Answer: A

---

**QUESTION 6**

What is a common benefit of using a Converged Network Adapter?

- A. ability to switch between Ethernet and InfiniBand connectivity
- B. hardware offload of SAS 3 O protocol
- C. direct access to network card ROM from operating system
- D. hardware offload of iSCSI protocol

Correct Answer: D

---

**QUESTION 7**

A customer needs a server solution that supports E3-120Q v5 processors which server model meets this requirement?

- A. ML1 110
- B. DL20
- C. DL380
- D. DL560

Correct Answer: C

---

**QUESTION 8**

A system administrator is concerned about a high number of visitors connecting to a company's network in addition to the production network traffic, the network infrastructure is used for the systems management traffic to the company's servers.

What should the administrator do to separate traffic?

- A. implement dynamic routing using the Open Shortest Path First (OSPL) protocol
- B. Split the traffic using me Virtual Local Area Networks (VI AN)
- C. Create multiple Spanning Tree Protocol (SIP) instances to carry different types of traffic
- D. Change the priority of the traffic using the Quality of Service (QoS) feature.

Correct Answer: D

---

**QUESTION 9**

Which value prepositions are provided with the HPE Synergy master/satellite architecture? (Select two.)

- A. zero touch change management
- B. top of rack switch design
- C. 40 percent or more lower fabric hardware costs
- D. redundant HPE Onboard Administrators
- E. SAS fabric consolidation

Correct Answer: BC

---

**QUESTION 10**

Which approach protects server data against natural disasters'?

- A. deploying the solution in two data centers in different geographic locations
- B. configuring a redundant power subsystem at the server/enclosure level
- C. implementing a redundant UPS solution
- D. configuring storage replication within the data center

Correct Answer: A

---

**QUESTION 11**

Which statement describes the positioning of iLO4 Essentials license?

- A. It provides standard ILO without KVM.
- B. It is used by cloud service providers.
- C. it enables complete HPE iLO Federation support.
- D. It fulfills SMB needs.

Correct Answer: C

**QUESTION 12**

Click and drag me memory type on me left to match it with Its description on the right.

Select and Place:

Memory type		Memory description
<input type="text" value="UDIMM"/>	<input type="text"/>	provides advanced error detection and memory register support
<input type="text" value="RDIMM"/>	<input type="text"/>	isolates the electrical loading of the DRAM from the system to allow for faster operation
<input type="text" value="LRDIMM"/>	<input type="text"/>	allows for performance optimization and configuration agility
<input type="text" value="NVDIMM"/>	<input type="text"/>	provides smaller capacity and basic error -correcting code

Correct Answer:

**QUESTION 13**

An administrator is unable to share the ILO graphic console on a DL380 Gen9 server with another administrator.

What should the administrator check first to diagnose the problem?

- A. whether the video cable is property connected to the ILO port
- B. whether the shared remote console for this server is enabled on the OA level
- C. whether single sign-on is enabled on the ILO
- D. whether the ILO has the advanced license applied

Correct Answer: D

**QUESTION 14**

Memory type	Memory description
<input type="text"/>	<b>RDIMM</b> provides advanced error detection and memory register support
<input type="text"/>	<b>LRDIMM</b> isolates the electrical loading of the DRAM from the system to allow for faster operation
<input type="text"/>	<b>UDIMM</b> allows for performance optimization and configuration agility
<input type="text"/>	<b>NVDIMM</b> provides smaller capacity and basic error -correcting code

Click and drag the business challenge on the left to match it with competitive advantage provided by implementing a hybrid infrastructure on the right.

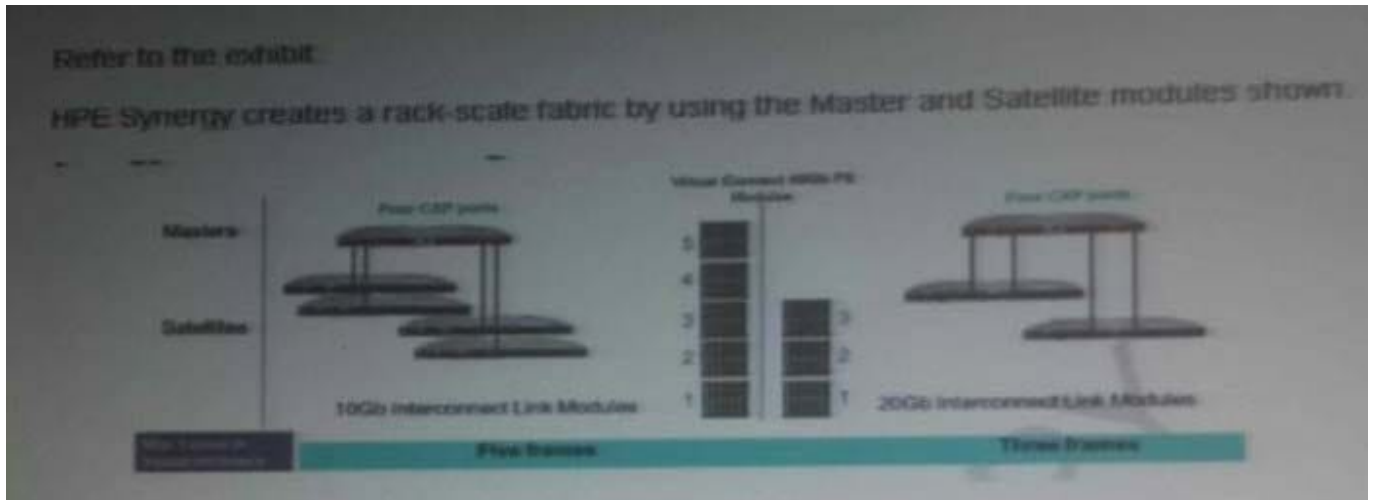

Select and Place:

Business challenge	Competitive Advantage
<input type="text" value="Inefficient operations"/>	<input type="text" value="agile and flexible"/>
<input type="text" value="Locked in by legacy investment"/>	<input type="text" value="simple and initiative"/>
<input type="text" value="Rigid IT environments"/>	<input type="text" value="workload optimized"/>
<input type="text" value="Technical and organizational silos"/>	<input type="text" value="flexible investments"/>

Correct Answer:

## QUESTION 15

Refer to the exhibit: What is the competitive advantage to customers to implementing a rack-scale fabric?

- A. multiple fabrics spanning multiple frames
- B. multiple fabrics within a single frame
- C. single fabric in a single frame
- D. single fabric spanning multiple frames

Correct Answer: A
