QUESTION 1

Which HPE tool provides a console for patching and maintaining the firmware and drivers on multiple HPE servers?

- A. Insight Inline.
- B. Smart Update Manager.
- C. iLO RESTful API.
- D. HPE iLO.

Correct Answer: C

QUESTION 2

You are proposing a Fibre Channel storage solution to a customer. What should you include in the proposal to allow servers to connect to the solution?

- A. virtual Fibre Channel router software.
- B. Fibre Channel host bus adapters (HBAs).
- C. iSCSI adapter.
- D. Ethernet NICs that support fiber optic SFP+ transceivers.

Correct Answer: D

QUESTION 3

A customer is interested in using Aruba Central to manage the company's Aruba APs. Where will the Aruba Central manager be located?

- A. at the IT edge of the customer's enterprise
- B. in the datacenter of the customer's enterprise
- C. in the HPE public cloud
- D. at each site within the customer's enterprise

Correct Answer: C

QUESTION 4

How do HPE StoreEasy solutions meet customer security needs?

- A. They automatically drop traffic that behaves like a denial of service (DoS) attack.

- B. They integrate TippingPoint intrusion protection system (IPS) capabilities.
- C. They exclusively use SSDs, which are more resilient against unauthorized access than HDDs.
- D. They provide built-in encryption and endpoint protection.

Correct Answer: C

QUESTION 5

What is the length for the limited warranty for HPE OfficeConnect switches?

- A. 190 days.
- B. 30 days.
- C. 5 years.
- D. lifetime of product.

Correct Answer: A

QUESTION 6

How does HPE stand out from IBM in the server market?

- A. IBM no longer supports the x86 server platform.
- B. IBM lacks global recognition as a server manufacturer.
- C. HPE products are consistently less expensive.

Correct Answer: A

QUESTION 7

A new customer wants a storage solution that can grow as their storage needs grow, and that will protect and leverage their initial investment. Why would the MSA 1040 be a good match?

- A. It allows data-in-place migrations to the MSA 2040 and MSA 2042.
- B. It can utilize available storage residing on x86 servers that are no longer used.
- C. It can be deployed in affordable building blocks to match growth.
- D. HDD drives can be hot swapped with larger SSD drives.

Correct Answer: B

QUESTION 8

A customer is expanding from one site to three and needs a network device that connects all six offices dispersed throughout the country. Which type of device meets this criteria?

- A. WAN router.
- B. firewall.
- C. unmanaged switch.
- D. Layer 2 switch.

Correct Answer: B

QUESTION 9

What is one benefit of HPE iLO?

- A. It provides a centralized management interface for storage, servers, and networking.
- B. It provides remote management of the server even if the server OS is in a degraded state.
- C. It bundles server firmware updates and drivers for a more seamless and risk free update process.
- D. It delivers self-service provisioning to drastically reduce application deployment time.

Correct Answer: A

QUESTION 10

What is a distinct feature of HPE StoreOnce VSA?

- A. It can run internally on any HPE autoloader tape system.
- B. It archives data to either tape or DVD media.
- C. It can manage primary storage for remote and branch offices.
- D. It is hardware agnostic and installs on any server.

Correct Answer: A

QUESTION 11

Which competitive solution from Cisco does HPE OneView compare to, and outperform, in several key performance indicators?

- A. Cisco UCS Manager.
- B. Cisco Catalyst.

C. Cisco ACI.

D. Cisco Flex.

Correct Answer: B

QUESTION 12

A mid-sized company needs a network management solution for a multi-vendor wired and wireless network architecture. Which solution should you recommend?

A. Aruba Instant

B. Aruba AirWave

C. Aruba Central

D. HPE OfficeConnect

Correct Answer: A

QUESTION 13

What is one way that HPE OneView stands out from the competition?

A. It enables customers to troubleshoot issues much more quickly.

B. It provides its own virtualization layer for managed servers rather than relying on VMware or Microsoft Hyper-V

C. It is deployed as a cloud-based solution rather than a management appliance.

D. It provides more detailed heat maps for mobile client and rogue AP locations.

Correct Answer: D

QUESTION 14

Which built-in feature of HPE servers can greatly aid IT personnel with server configuration and OS deployment?

A. Intelligent Provisioning.

B. HPE OneView.

C. SCCM.

D. HPE Insight Inline.

Correct Answer: D

QUESTION 15

What is one benefit of an HPE hybrid infrastructure?

- A. It ensures that IT budgets use a fixed cost structure rather than a variable one.
- B. It enhances security because it requires all resources and services to remain on-site.
- C. It reduces support costs by eliminating all self-provisioning mechanisms.
- D. It drastically reduces the time for service and resource deployment.

Correct Answer: A
