QUESTION 1

What is the purpose of HP OneView PowerShell Library?

- A. provides an automated issue tracker for HP OneView managed devices
- B. automates the management of HP OneView by using a series of cmdlets
- C. constrains the location of the HP OneView binary code
- D. provides direct access to the file system and internal database of the appliance

Correct Answer: B

QUESTION 2

Your customer has an enclosure with a combination of ProLiant G7, Gen8, and Gen9 servers that are monitored by HPE OneView in a single enclosure. The customer needs to add their new ProLiant Gen9 servers to the enclosure.

Which constraint should you make the customer aware of before they add the Gen9 server?

- A. The Gen9 servers will be restricted to legacy BIOS mode only.
- B. The Gen9 servers are not supported in a mixed enclosure.
- C. The Gen9 servers can only be monitored, and not managed, in this enclosure.
- D. Gen9 server blades are not supported in HPE OneView as managed only devices.

Correct Answer: C

QUESTION 3
