QUESTION 10

A job recruiter screens candidates to assess their qualifications. The recruiter determines whether the candidate matches the targeted position, matches a different position in the company, or does not match any position. A decision table, based on the recruiter\'s feedback, automatically advances the case through a corresponding connector named Selected Position, Targeted Position, and Reject. How do you configure the condition column(s)?

A. Create separate columns for Selected Position, Targeted Position, and Reject.

B. Create separate columns for Matches Position, Matches Another Position, and Does Not Match Any Position.

C. Create a single column for Position.

D. Create one column for feedback, with three rows for the three possible decisions.

Correct Answer: D

QUESTION 11

Which of the following is not part of the organizational structure?

A. Division

B. Unit

C. Organization

D. Work Group

Correct Answer: D

QUESTION 12

An application includes three case types. Members of the App: Users access role are not allowed to run reports for one of the case types.

Which two configurations can you apply to satisfy this requirement (Choose Two)

A. Create an Access Deny record and set the Run reports action to No Access.

B. Apply an Access When record to test for the user role to the Run reports action in the Access Manager.

C. Use the Access Manager and set the Run reports action for the case type to No Access for the user role.

D. Apply an Access When record to test the case type to the Run reports action in the Access Manager.

Correct Answer: BC

QUESTION 13

How do you ensure that only a manager can run a specific flow action?

A. Add a privilege to the flow action form, then add the privilege to a role assigned to the access group for managers.

B. Add an Access When condition to the flow action to determine whether the user is a manager.

C. Add a pre-processing activity to the flow action form to determine whether the user is a manager.

D. Add a validate rule to the flow action form to determine whether the user is a manager.

Correct Answer: A
