

PW0-070^{Q&As}

Certified Wireless Technology Specialist

Pass CWNP PW0-070 Exam with 100% Guarantee

Free Download Real Questions & Answers **PDF** and **VCE** file from:

<https://www.leads4pass.com/pw0-070.html>

100% Passing Guarantee
100% Money Back Assurance

Following Questions and Answers are all new published by CWNP
Official Exam Center

- ⚙️ **Instant Download** After Purchase
- ⚙️ **100% Money Back** Guarantee
- ⚙️ **365 Days** Free Update
- ⚙️ **800,000+** Satisfied Customers

QUESTION 1

On which of the following factors does the capacity of an access point depend? Each correct answer represents a complete solution. Choose all that apply.

- A. Channel reuse
- B. Software applications
- C. Number of users
- D. Co-location

Correct Answer: BC

QUESTION 2

Which of the following gains is used by antennas to provide an increase in RF coverage?

- A. Passive
- B. Positive
- C. Negative
- D. Active

Correct Answer: A

QUESTION 3

Which of the following security policies will you implement to keep safe your data when you connect your Laptop to the office network over IEEE 802.11 WLANs? Each correct answer represents a complete solution. Choose two.

- A. Using portscanner like nmap in your network.
- B. Using personal firewall software on your Laptop.
- C. Using an IPSec enabled VPN for remote connectivity.
- D. Using a protocol analyzer on your Laptop to monitor for risks.

Correct Answer: BC

QUESTION 4

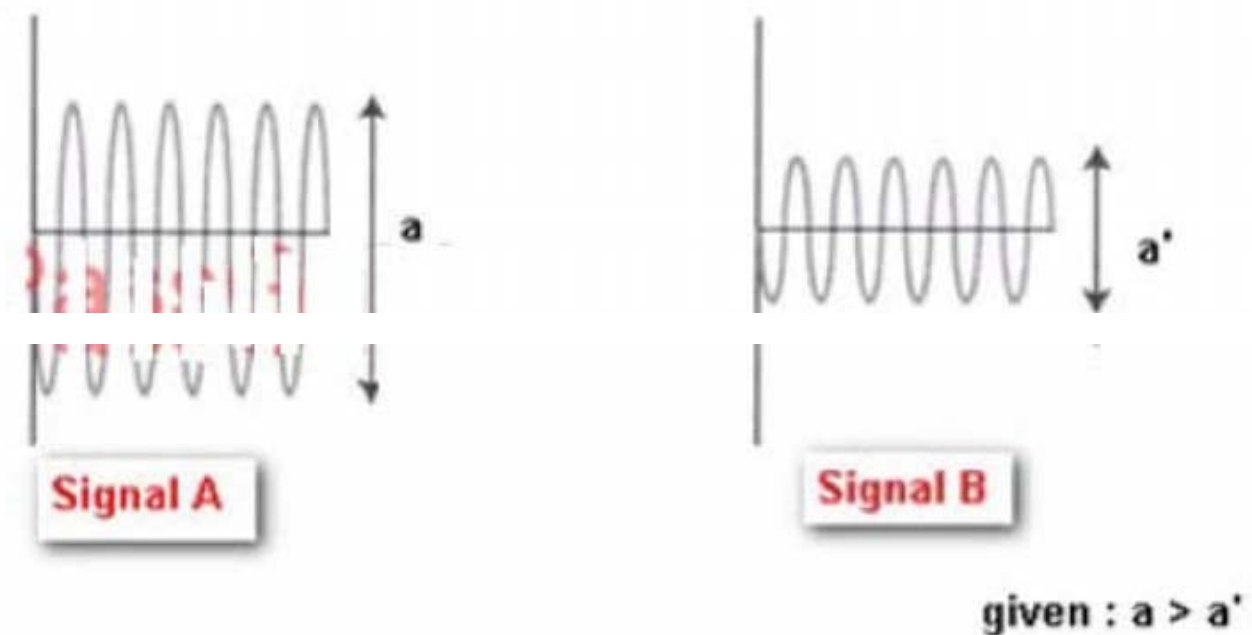

Which of the following statements are true about Radio frequency (RF) waves? Each correct answer represents a complete solution. Choose all that apply.

- A. They are a subset of electromagnetic waves.
- B. They have a frequency of 3 KHz to 300 GHz.
- C. They have a wavelength of 100km to 1mm.
- D. They have a frequency of 300 KHz to 3 GHz.
- E. They travel at the speed of light.
- F. They have a wavelength of 10km to 1mm.

Correct Answer: ABCE

QUESTION 5

Two RF signals, shown below, are operating at the same frequency of 2.142 MHz, but with different amplitudes. Which of the following statements is true about these two signals?

- A. The signal with a higher amplitude (Signal A) has less power than the signal with a lower amplitude (Signal B).
- B. Both signals have the same power.
- C. The power of the two signals depends on the medium through which they are propagating.
- D. The signal with a higher amplitude (Signal A) has more power than the signal with a lower amplitude (Signal B).

Correct Answer: D

QUESTION 6

Which of the following standards is used in Cordless phones?

- A. IEEE
- B. DECT
- C. IETF
- D. FCC

Correct Answer: B

QUESTION 7

Which of the following statements are true about the ITU-Radio communication Sector (ITU-R)? Each correct answer represents a complete solution. Choose all that apply.

- A. It manages seven regions.
- B. It is responsible for global management of RF spectrum, in addition to satellite orbits.
- C. It is required to allocate spectrum and register frequency allocation, orbital positions, and other parameters of satellites, in order to avoid harmful interference between radio stations of different countries.
- D. It is one of the three sectors of the International Telecommunication Union (ITU) and is responsible for radio communication.
- E. Its membership includes 100 Member States and more than 700 Sector Members and Associates.

Correct Answer: BCD

QUESTION 8

You are implementing wireless access at a defense contractor. Specifications say, you must implement the AES Encryption algorithm. Which encryption standard should you choose?

- A. TKIP
- B. WPA
- C. WPA 2
- D. WEP

Correct Answer: C

QUESTION 9

Which of the following wireless techniques provides the highest data transfer speed?

- A. Infrared
- B. 802.11b
- C. Bluetooth
- D. 802.11

Correct Answer: B

QUESTION 10

Which of the following PCMCIA configuration directives is used to configure the NIC\\'s network address?

- A. NETMASK
- B. DOMAIN
- C. NETADDR
- D. IPADDR
- E. NETWORK

Correct Answer: E

QUESTION 11

Which of the following is a case sensitive text string used in wireless network and having a maximum length of 32 characters?

- A. WEP
- B. WAP
- C. SSID
- D. WTLS

Correct Answer: C

QUESTION 12

Which of the following factors determines whether a site is required?

- A. Number of servers
- B. Geographic location

- C. Number of antennas
- D. Number of access points

Correct Answer: D

QUESTION 13

Which of the following defines Internet standards?

- A. IEEE
- B. RFC
- C. IANA
- D. FAQ

Correct Answer: B

QUESTION 14

The IEEE 802.11b standard specifies the characteristics of a wireless LAN. What transmission speed is supported by this standard?

- A. 256 Kbps
- B. 56 Kbps
- C. 11 Mbps
- D. 512 Kbps

Correct Answer: C

QUESTION 15

You are using maps in the WCS to design a wireless LAN network. You add a campus and two buildings to the map. Now you plan to add a new floor area to the first building. The floor types include cubes and walled offices, drywall office only, and outdoor open space. Which of the following do the floor types use to assist the WCS by adding these elements?

- A. Electromagnetic interference
- B. RF prediction
- C. Site survey utility

D. RF modeling

Correct Answer: D
