QUESTION 1

NRZ is the acronym for which of the following?

- A. Non-return to zero.
- B. Nominal return zone.
- C. Network registration zone.
- D. Normal return zone.

Correct Answer: A

QUESTION 2

Aerial fiber optic cable spans of less than 328 feet can be routinely engineered when a dedicated support strand is used.

- A. False
- B. True

Correct Answer: B

QUESTION 3

Company A recently signed a contract with a strategic business partner, Company B, to jointly roll out a new technology. Company B is excited about the joint marketing opportunity. Company A's component Quality Assurance team has expressed concerns to you, the program manager, that the product is being rolled out prematurely and has identified potential issues with backend support systems. QA, however, assures you that a manual work around is possible, but not ideal. Company B requests an enhancement to the new product. In a meeting with Company B, you determine that additional funding will be required and resources allocated and scheduled.

What is your MOST appropriate next step?

- A. Secure funding from another project that was cancelled
- B. Use an integrated change control process
- C. Use the available management reserve
- D. Advise Company B that funding and resources are not available

Correct Answer: B

QUESTION 4

A two-year program is coming to an end. Many of the initial governance board members have moved from their current

posts or left the company. Several new members have joined but have a shod association with the program, which changes the board's expectations and focus. During the final phase gate review, some board members are uncertain of their roles and expectations in the process.

How should the program manager handle this situation?

- A. Review the final program outcome with the program sponsor
- B. Prepare a program change request utilizing new board member input
- C. Review the strategic plan and benefits management plan with the board
- D. Present the final program status, costs, and schedule reports

Correct Answer: C

QUESTION 5

Throughout a multiyear program, component projects are transitioned to the customer. During the project acceptance phase, a potential risk is identified and brought to the program team's attention.

What should be done with the identified potential risk?

- A. Incorporate it into the risk register and perform a thorough analysis
- B. Mitigate the risk before it is incorporated into the risk management plan
- C. Document the risk in the program transition plan and identify it as a potential issue
- D. Document it in the issue log and immediately notify the steering committee

Correct Answer: A

QUESTION 6

You are designing a multi-story dwelling and need to place the CTR's. Every floor is not available. What is the alternate spacing for the CTRs?

- A. Every 2 floors
- B. Every 3 floors
- C. Every 4 floors
- D. Every 5 floors
- E. 1st floor and midway up through the height of the building

Correct Answer: B

QUESTION 7
